Starting digitally from everything within [skat.dk](http://skat.dk) (42.000 pages) and forward to merge graphics with the offline communication dept. - thus co-creating/coworking all offline communication and [TastSelv Borger](#) og [TastSelv Erhverv](#) (400 mio views/year).

100% my design and my HTML/CSS:

[skat.dk/job](http://skat.dk/job),  
[skat.dk/unge](http://skat.dk/unge),  
[skat.dk/omskat](http://skat.dk/omskat),  
[håndværkerfradrag](#),

Design/co-creation and more/less build:

[skat.dk](http://skat.dk)  
[skat.dk/kontakt](http://skat.dk/kontakt)  
[skat.dk/404](http://skat.dk/404)  
[SKATs app](#)  
Intranet  
Offline graphics  
[TastSelv Borger](#)  
[TastSelv Erhverv](#)  
[Mobil moms](#).

SKAT became [blue \(#395f77\)](#) from [yellow #ffc61e](#) and I have updated the use of the logo. Also co-created a UDG (Udviklings- og Designguide) - not public yet.

I do animations as well. [Historien om årsopgørelsen](#). (not released yet): [Sådan spotter du falske mails](#) and some [flowcharts](#) and [infographics](#) (look under 'julegaver').
